Now, more than ever, teachers need a social-emotional learning program that can help them create connection and community with their students, whether they're together in-person or online!

Become a Certified Positive Discipline Classroom Educator!

This 5-session interactive workshop is designed for teachers, counselors, school staff and administrators who want an effective discipline approach based on Adlerian Psychology, that **integrates trauma-informed, social-emotional learning** while **reducing challenging student behaviors**. Attendees will earn recognition as Certified Positive Discipline Classroom Educators and will learn to:

1. Teach students social-emotional skills such as emotional awareness and regulation, cooperation, communication, conflict resolution, leadership...and so much more!
2. Learn Positive Discipline/Adlerian psychology for use in the classroom and school community.
3. Create a classroom with a sense of community in which teachers and students show respect for each other.
4. Establish explicit classroom structures and procedures.
5. Understand the belief behind the students' misbehavior and how to motivate positive change.
6. Teach problem solving and solution building, so students learn how to manage and resolve conflict peer-to-peer, without adult intervention.
