

Teaching Parenting the Positive Discipline Way

Feb 28, 29 March 3, 4, & 5 * 9-12pm PST * ONLINE

Parents need support now more than ever - and research tells us that children are “hardwired” from birth to connect with others, and that children who feel a sense of connection to their community, family, and school are less likely to misbehave. To be successful, contributing members of their community, children must learn necessary social and life skills.

Participants in this workshop will:

1. Learn research based effective tools and techniques for teaching parents how to use discipline that is kind and firm at the same time (non-punitive, non-permissive).
2. Learn how to facilitate a parent class from the position of a non-expert.
3. Gain practice with experiential exercises that help parents go beyond intellectual understanding to be able to respond in empowering ways that teach children.
4. Learn how to use materials and activities in group settings, parenting classes and individual work with families.

Materials Include:
 Teaching Parenting Manual
 Positive Discipline Book
 Positive Discipline Toolcards
